

RIVER⁸

The prêt-à-porter veneering
concept for instant beautiful smiles

From the makers of GlamSmile® customized veneers

Imagine you could offer your patients an instant beautiful smile with ultrathin, high quality porcelain veneers in just one visit...

With RIVER8 you can

Prêt-à-porter Veneers

RIVER8 provides a full spectrum of standard veneers, made from top quality porcelain, to make your patients' smiles permanently white in just one visit. Along with a variety of shades and sizes, RIVER8 gives you an optimum selection of the most attractive natural teeth shapes based on extensive research. With this diversity of shapes, shades and sizes, you can find the right combination for the teeth of virtually all your patients.

Fitting the veneers is fast and easy. There's no need for 'free hand technique' as with direct composite bonding, and you don't have to make impressions or spend time in the lab. With the RIVER8 veneer collection, you have everything you need to fulfill your patients' dream right away.

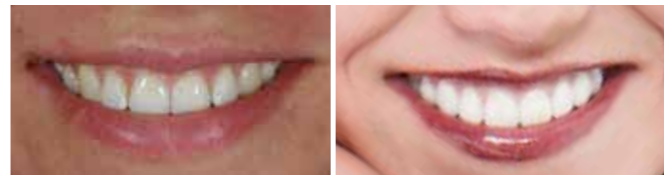

The perfect smile make-over

RIVER8 veneers solve many esthetic problems, including discoloration, enamel defects and minor misalignments. They can be applied to close diastema or lengthen the front teeth. You can also quickly find replacement veneers in the broad veneer collection.

Benefits for the dentist

- Only one visit required
- Easy to select and fit
- Fabulous results with high luminosity
- Perfect customization by combining three shapes, three shades and three sizes (two for the lower arch)
- Efficient smile restoration with eight veneers per arch covering the esthetic smile zone
- High added value for patient and dentist
- Excellent return on investment for both dentist and patient

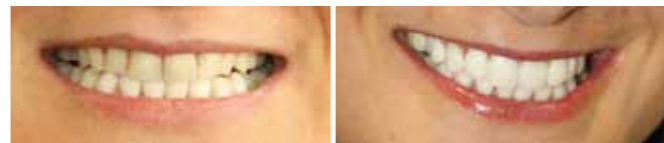

Alignment and Shade correction

Technical data

RIVER8 veneers are ultrathin (0.2 – 0.5 mm), low translucent and super strong thanks to the porcelain used to fabricate the veneers: IPS E-max porcelain from the renowned international leader Ivoclar Vivadent. One of the exceptional characteristics of this ceramic is its flexural strength of 360 to 400 MPa. Like the well known GlamSmile veneers, these veneers are CAD/CAM designed and manufactured to ensure consistent high quality.

Lots of reasons why your patients will love them

- Affordable solution for patients who need a permanent white smile
- Easy way to achieve better alignment
- Enhances an existing GlamSmile smile
- Only one visit to the dentist
- Non-invasive smile solution: no tooth structure removal
- Fast, easy replacement of existing veneers
- Excellent results, staying beautiful over the years
- Ideal for patients who do not have the resources to invest in a customized solution

"I am so excited about my new smile. It is worth a fortune, but happily it didn't cost me a fortune! Also, the treatment was fast and painless. Amazing how well the veneers fit. They feel like my own teeth!"

Marina, Belgium

Largest instant veneer assortment

With three different shapes, sizes and shades for the upper teeth and one shape, two sizes and three shades for the lower teeth, covering the perfect smile zone of eight upper teeth and eight lower teeth, RIVER8 has the largest “Instant Veneer” assortment worldwide. This ensures maximum results for customizing your patients' smiles.
